EXPLANATION OF TERMS USED AND RULES FOLLOWED IN COMPILING RECORDS.

Q. C. is an abbreviation for Quit Claim deed, i. e., a deed where all the right, title and interest of the grantor is conveyed, omitting all covenants and warranties.

C. a G. means a deed containing Covenant against Grantor only, in which the covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or encumbered.

B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no expressed consideration, he really grants or conveys the property for a valuable consideration, and thus impliedly claims to be the owner of it.

The street and avenue numbers given in these lists are, in all cases, taken from the insurance maps when they are not mentioned in the deeds. The numbers, it will occasionally be found, do not correspond with the existing ones, owing to there having been no official designation made by them by the Department of Public Works.

The first date is the date the deed was drawn. The second date is the date of filing same. When both dates are the same, only one is given. When the date of drawing is other than in the current year the stated year is given. When both the dates are in the same year the year follows the second date.

The figures in each conveyance, thus, 2:482-10, denote that the property mentioned is in section 2, block 482, lot 10.

It should also be noted in section and block numbers that the instrument as filed is strictly followed.

A \$20,000-\$80,000 indicates the assessed value of the property, the first figures being for the lot only and the second figures representing both lot and building. Letter P before second figure indicates that the property is assessed as in course of construction. Valuations are from the assessment roll of 1916.

T. S. preceding the consideration in a conveyance means that the deed or conveyance has been recorded under the Torrens System.

Flats and apartment houses are classified as tenements.

Residences as dwellings.

All Christian names, streets, avenues, states and months are abbreviated when possible, also in some instances names of Banks, Trusts and Insurance Companies.

The Star following names of street or avenue in the Bronx Conveyances, Leases and Mortgages indicates that the property recorded is in the annexed district, for which there is no section or block number.

**THE
RECORD AND GUIDE
QUARTERLY.**
Attention is called to the users
of the records, published in the
Record and Guide, to the Record
and Guide Quarterly. The Quar-
terly is published every three
months, the final installment be-
ing combined with the three pre-
ceding ones, making, in one com-
pact volume, a complete transcrip-
tion, in digest form, of all Convey-
ances, Miscellaneous Conveyances
such as Release of Mortgages, Con-
tracts, Agreements, Consents, As-
signments of Rents, Power of At-
torneys, Designation, Resignation
and Appointment of New Trustees
and Executors, etc., Mortgages,
Extension of Mortgages, Partici-
pation and Subordination Agree-
ments of Mortgages, Assignments
of Mortgages, Satisfied Mortgages,
Leases, including consents, assign-
ments, cancellations and surrender
of leases; Real Estate Appraisals,
Auction Sales, Wills, New Build-
ings and Alterations with cross
references for the entire year, Bor-
ough of Manhattan. These records
are arranged geographically, chron-
ologically and alphabetically so
that the subscriber may, at a mo-
ment's notice, find the desired in-
formation. In order to make these
records more complete the attor-
ney's name is inserted in all Mort-
gages and a geographical cross re-
ference to the Real Estate Apprais-
als is given. This permits the user
in searching for the appraised
value of a given parcel, and not
having the name of the deceased,
to obtain the information instantly.
Years of experience have demon-
strated that by using the Record
and Guide Quarterly time and an-
noyance are saved. It is equally
valuable to the broker who main-
tains an elaborate system of keep-
ing records, or the man who must
condense his plant.

REAL ESTATE APPRAISALS.

The following values were placed on real estate properties this week by the State appraisers in transfer tax proceedings, affecting Manhattan holdings. The amount specified does not in every case indicate the equity or interest of the decedent. In some cases he is not even the owner of record. It merely quotes the estimated market value of the realty regardless of mortgages or other liens. The information comprises the name of decedent, date of death, location of property, block and lot on city map, description of building, size of lot and estimated value on the date given. Where decedent owned property in other boroughs, details of Manhattan holdings only are given.

Borough of Manhattan.

EXPLANATION OF TERMS USED AND RULES FOLLOWED IN COMPILING RECORDS.

Q. C. is an abbreviation for Quit Claim deed, i. e., a deed where all the right, title and interest of the grantor is conveyed, omitting all covenants and warranty.

C. & G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or encumbered.

B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no expressed consideration, he really grants or conveys the property for a valuable consideration, and thus impliedly claims to be the owner of it.

The street and avenue numbers given in these lists are, in all cases, taken from the insurance maps when they are not mentioned in the deeds. The numbers, it will occasionally be found, do not correspond with the existing ones, owing to there having been no official designation made by them by the Department of Public Works.

The first date is the date the deed was drawn. The second date is the date of filing same. When both dates are the same, only one is given. When the date of drawing is other than in the current year the stated year is given. When both the dates are in the same year the year follows the second date.

The figures in each conveyance, thus, 2:482-10, denote that the property mentioned is in section 2, block 482, lot 10.

It should also be noted in section and block numbers that the instrument as filed is strictly followed.

A \$20,000-\$30,000 indicates the assessed value of the property, the first figures being for the lot only and the second figures representing both lot and building. Letter P before second figure indicates that the property is assessed as in course of construction. Valuations are from the assessment roll of 1916.

T. S. preceding the consideration in a conveyance means that the deed or conveyance has been recorded under the Torrens System.

Flats and apartment houses are classified as tenements.

Residences as dwellings.

All Christian names, streets, avenues, states and months are abbreviated when possible, also in some instances names of Banks, Trusts and Insurance Companies.

The Star following names of street or avenue in the Bronx Conveyances, Leases and Mortgages indicates that the property recorded is in the annexed district, for which there is no section or block number.

THE RECORD AND GUIDE QUARTERLY.

Attention is called to the users of the records, published in the Record and Guide, to the Record and Guide Quarterly. The Quarterly is published every three months, the final installment being combined with the three preceding ones, making, in one compact volume, a complete transcription, in digest form, of all Conveyances, Miscellaneous Conveyances such as Release of Mortgages, Contracts, Agreements, Consents, Assignments of Rents, Power of Attorneys, Designation, Resignation and Appointment of New Trustees and Executors, etc., Mortgages, Extension of Mortgages, Participation and Subordination Agreements of Mortgages, Assignments of Mortgages, Satisfied Mortgages, Leases, including consents, assignments, cancellations and surrender of leases; Real Estate Appraisals, Auction Sales, Wills, New Buildings and Alterations with cross references for the entire year, Borough of Manhattan. These records are arranged geographically, chronologically and alphabetically so that the subscriber may, at a moment's notice, find the desired information. In order to make these records more complete the attorney's name is inserted in all Mortgages and a geographical cross reference to the Real Estate Appraisals is given. This permits the user in searching for the appraised value of a given parcel, and not having the name of the deceased, to obtain the information instantly. Years of experience have demonstrated that by using the Record and Guide Quarterly time and annoyance are saved. It is equally valuable to the broker who maintains an elaborate system of keeping records, or the man who must condense his plant.

REAL ESTATE APPRAISALS.

The following values were placed on real estate properties this week by the State appraisers in transfer tax proceedings, affecting Manhattan holdings. The amount specified does not in every case indicate the equity or interest of the decedent. In some cases he is not even the owner of record. It merely quotes the estimated market value of the realty regardless of mortgages or other liens. The information comprises the name of decedent, date of death, location of property, block and lot on city map, description of building, size of lot and estimated value on the date given. Where decedent owned property in other boroughs, details of Manhattan holdings only are given.

Borough of Manhattan.

Breitenberger, Augustus A.—Sept16'16 (Apr5'16)—EAST END AV, 102 (5:1581-24), 25x78, 4-sty stn & bk tnt; ½ pt of \$14,000, less 10%.

EXPLANATION OF TERMS USED AND RULES FOLLOWED IN COMPILING RECORDS.

Q. C. is an abbreviation for Quit Claim deed, i. e., a deed where all the right, title and interest of the grantor is conveyed, omitting all covenants and warranty.

C. a G. means a deed containing Covenant against Grantor only, in which the covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or encumbered.

B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no expressed consideration, he really grants or conveys the property for a valuable consideration, and thus impliedly claims to be the owner of it.

The street and avenue numbers given in these lists are, in all cases, taken from the insurance maps when they are not mentioned in the deeds. The numbers, it will occasionally be found, do not correspond with the existing ones, owing to there having been no official designation made by them by the Department of Public Works.

The first date is the date the deed was drawn. The second date is the date of filing same. When both dates are the same, only one is given. When the date of drawing is other than in the current year the stated year is given. When both the dates are in the same year the year follows the second date.

The figures in each conveyance, thus, 2:432-10, denote that the property mentioned is in section 2, block 432, lot 10.

It should also be noted in section and block numbers that the instrument as filed is strictly followed.

A \$20,000-\$30,000 indicates the assessed value of the property, the first figures being for the lot only and the second figures representing both lot and building. Letter P before second figure indicates that the property is assessed as in course of construction. Valuations are from the assessment roll of 1916.

T. S. preceding the consideration in a conveyance means that the deed or conveyance has been recorded under the Torrens System.

Flats and apartment houses are classified as tenements.

Residences as dwellings.

All Christian names, streets, avenues, states and months are abbreviated when possible, also in some instances names of Banks, Trusts and Insurance Companies.

The Star following names of street or avenue in the Bronx Conveyances, Leases and Mortgages indicates that the property recorded is in the annexed district, for which there is no section or block number.

THE RECORD AND GUIDE QUARTERLY.

Attention is called to the users of the records, published in the Record and Guide, to the Record and Guide Quarterly. The Quarterly is published every three months, the final installment being combined with the three preceding ones, making, in one compact volume, a complete transcription, in digest form, of all Conveyances, Miscellaneous Conveyances such as Release of Mortgages, Contracts, Agreements, Consents, Assignments of Rents, Power of Attorneys, Designation, Resignation and Appointment of New Trustees and Executors, etc., Mortgages, Extension of Mortgages, Participation and Subordination Agreements of Mortgages, Assignments of Mortgages, Satisfied Mortgages, Leases, including consents, assignments, cancellations and surrender of leases; Real Estate Appraisals, Auction Sales, Wills, New Buildings and Alterations with cross references for the entire year, Borough of Manhattan. These records are arranged geographically, chronologically and alphabetically so that the subscriber may, at a moment's notice, find the desired information. In order to make these records more complete the attorney's name is inserted in all Mortgages and a geographical cross reference to the Real Estate Appraisals is given. This permits the user in searching for the appraised value of a given parcel, and not having the name of the deceased, to obtain the information instantly. Years of experience have demonstrated that by using the Record and Guide Quarterly time and annoyance are saved. It is equally valuable to the broker who maintains an elaborate system of keeping records, or the man who must condense his plant.

REAL ESTATE APPRAISALS.

The following values were placed on real estate properties this week by the State appraisers in transfer tax proceedings, affecting Manhattan holdings. The amount specified does not in every case indicate the equity or interest of the decedent. In some cases he is not even the owner of record. It merely quotes the estimated market value of the realty regardless of mortgages or other liens. The information comprises the name of decedent, date of death, location of property, block and lot on city map, description of building, size of lot and estimated value on the date given. Where decedent owned property in other boroughs, details of Manhattan holdings only are given.

Borough of Manhattan.

EXPLANATION OF TERMS USED AND RULES FOLLOWED IN COMPILING RECORDS.

Q. C. is an abbreviation for Quit Claim deed, i. e., a deed where all the right, title and interest of the grantor is conveyed, omitting all covenants and warranty.

C. a G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or encumbered.

B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no expressed consideration, he really grants or conveys the property for a valuable consideration, and thus impliedly claims to be the owner of it.

The street and avenue numbers given in these lists are, in all cases, taken from the insurance maps when they are not mentioned in the deeds. The numbers, it will occasionally be found, do not correspond with the existing ones, owing to there having been no official designation made by them by the Department of Public Works.

The first date is the date the deed was drawn. The second date is the date of filing same. When both dates are the same, only one is given. When the date of drawing is other than in the current year the stated year is given. When both the dates are in the same year the year follows the second date.

The figures in each conveyance, thus, 2:432-10, denote that the property mentioned is in section 2, block 432, lot 10.

It should also be noted in section and block numbers that the instrument as filed is strictly followed.

A \$20,000—\$20,000 indicates the assessed value of the property, the first figures being for the lot only and the second figures representing both lot and building. Letter P before second figure indicates that the property is assessed as in course of construction. Valuations are from the assessment roll of 1916.

T. S. preceding the consideration in a conveyance means that the deed or conveyance has been recorded under the Torrens System.

Flats and apartment houses are classified as tenements.

Residences as dwellings.
All Christian names, streets, avenues, states and months are abbreviated when possible, also in some instances names of Banks, Trusts and Insurance Companies.

The Star following names of street or avenue in the Bronx Conveyances, Leases and Mortgages indicates that the property recorded is in the annexed district, for which there is no section or block number.

THE RECORD AND GUIDE QUARTERLY.

Attention is called to the users of the records, published in the Record and Guide, to the Record and Guide Quarterly. The Quarterly is published every three months, the final installment being combined with the three preceding ones, making, in one compact volume, a complete transcription, in digest form, of all Conveyances, Miscellaneous Conveyances such as Release of Mortgages, Contracts, Agreements, Consents, Assignments of Rents, Power of Attorneys, Designation, Resignation and Appointment of New Trustees and Executors, etc., Mortgages, Extension of Mortgages, Participation and Subordination Agreements of Mortgages, Assignments of Mortgages, Satisfied Mortgages, Leases, including consents, assignments, cancellations and surrender of leases; Real Estate Appraisals, Auction Sales, Wills, New Buildings and Alterations with cross references for the entire year, Borough of Manhattan. These records are arranged geographically, chronologically and alphabetically so that the subscriber may, at a moment's notice, find the desired information. In order to make these records more complete the attorney's name is inserted in all Mortgages and a geographical cross reference to the Real Estate Appraisals is given. This permits the user in searching for the appraised value of a given parcel, and not having the name of the deceased, to obtain the information instantly. Years of experience have demonstrated that by using the Record and Guide Quarterly time and annoyance are saved. It is equally valuable to the broker who maintains an elaborate system of keeping records, or the man who must condense his plant.

Lewis st, 191 (2:360-59), ws, 73.4 n 5th, 24.5x79.1x24.3x82.5, 3-sty bk shop; John Tiebout & ano, EXRS John Tiebout, to Morris Felstin, 287 E 7; mtg \$6,000; Apr9; Apr25'18; A\$8,500-9,500 (R S \$7). 9,000

REAL ESTATE APPRAISALS.

The following values were placed on real estate properties this week by the State appraisers in transfer tax proceedings, affecting Manhattan holdings. The amount specified does not in every case indicate the equity or interest of the decedent. In some cases he is not even the owner of record. It merely quotes the estimated market value of the realty regardless of mortgages or other liens. The information comprises the name of decedent, date of death, location of property, block and lot on city map, description of building, size of lot and estimated value on the date given. Where decedent owned property in other boroughs, details of Manhattan holdings only are given.

Borough of Manhattan.

Burrow, Eliz. S.—Jan2'17 (Apr22'18)—VAN CORLEAR PL, 22 (8:2215-364), 37x100, 2-sty fr dwg, \$9,500.

EXPLANATION OF TERMS USED AND RULES FOLLOWED IN COMPILING RECORDS.

Q. C. is an abbreviation for Quit Claim deed, i. e., a deed where all the right, title and interest of the grantor is conveyed, omitting all covenants and warranty.

C. a G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or encumbered.

B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no expressed consideration, he really grants or conveys the property for a valuable consideration, and thus impliedly claims to be the owner of it.

The street and avenue numbers given in these lists are, in all cases, taken from the insurance maps when they are not mentioned in the deeds. The numbers, it will occasionally be found, do not correspond with the existing ones, owing to there having been no official designation made by them by the Department of Public Works.

The first date is the date the deed was drawn. The second date is the date of filing same. When both dates are the same, only one is given. When the date of drawing is other than in the current year the stated year is given. When both the dates are in the same year the year follows the second date.

The figures in each conveyance, thus, 2:422-10, denote that the property mentioned is in section 2, block 422, lot 10.

It should also be noted in section and block numbers that the instrument as filed is strictly followed.

A \$20,000-\$20,000 indicates the assessed value of the property, the first figures being for the lot only and the second figures representing both lot and building. Letter P before second figure indicates that the property is assessed as in course of construction. Valuations are from the assessment roll of 1916.

T. S. preceding the consideration in a conveyance means that the deed or conveyance has been recorded under the Torrens System.

Flats and apartment houses are classified as tenements.

Residences as dwellings.

All Christian names, streets, avenues, states and months are abbreviated when possible, also in some instances names of Banks, Trusts and Insurance Companies.

The Star following names of street or avenue in the Bronx Conveyances, Leases and Mortgages indicates that the property recorded is in the annexed district, for which there is no section or block number.

THE SUPREME COURT

has permitted real estate appraisers to qualify as experts and testify in court proceedings from their knowledge of real estate values obtained from the records as published in the Record and Guide. Why? Because, they are absolutely authentic, for these records are carefully abstracted from the original instruments, verified and edited by experts with years of experience, thus making them accurate, dependable and reliable, having no equal, and their value never decreasing.

With additional information not given in the Record and Guide weekly, these records are also published in the Quarterly, the final one, making in one compact volume, a complete transcription, in digest form, of all Conveyances, Miscellaneous Conveyances such as Release of Mortgages and Dowers, Contracts, Agreements, Consents, Assignments of Rents, Power of Attorneys Designation, Resignation and Appointment of New Trustees and Executors, etc., Mortgages, Extension of Mortgages, Participation and Subordination Agreements of Mortgages, Assignments of Mortgages, Satisfied Mortgages, Leases, including consents, assignments, cancellations and surrender of leases; Real Estate Appraisals, Auction Sales, Wills, New Buildings and Alterations with cross references for the entire year, Borough of Manhattan. These records are arranged geographically, chronologically and alphabetically so that the subscriber may, at a moment's notice, find the desired information. In order to make these records more complete the attorney's name is inserted in all Mortgages and a geographical cross reference to the Real Estate Appraisals is given. This permits the user in searching for the appraised value of a given parcel, and not having the name of the deceased, to obtain the information instantly. Years of experience have demonstrated that by using the Record and Guide Quarterly time and annoyance are saved. It is equally valuable to the broker who maintains an elaborate system of keeping records, or the man who must condense his plant.

REAL ESTATE APPRAISALS.

The following values were placed on real estate properties this week by five State appraisers in transfer tax proceedings, affecting Manhattan holdings. The amount specified does not in every case indicate the equity or interest of the decedent. In some cases he is not even the owner of record. It merely quotes the estimated market value of the realty regardless of mortgages or other liens. The information comprises the name of decedent, date of death, location of property, block and lot on city map, description of building, size of lot and estimated value on the date given. Where decedent owned property in other boroughs, details of Manhattan holdings only are given.

Borough of Manhattan.

Conolly, Edw.—Feb17'17 (Apr25'18)—PLEASANT AV, 386 (6:1817-4), 25.2x98.9, 3-sty fr dwg, \$5,000.

EXPLANATION OF TERMS USED AND
RULES FOLLOWED IN COMPILING
RECORDS.

Q. C. is an abbreviation for Quit Claim deed, i. e., a deed where all the right, title and interest of the grantor is conveyed, omitting all covenants and warranty.

C. a G. means a deed containing Covenant against Grantor only, in which the covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or encumbered.

B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no expressed consideration, he really grants or conveys the property for a valuable consideration, and thus impliedly claims to be the owner of it.

The street and avenue numbers given in these lists are, in all cases, taken from the insurance maps when they are not mentioned in the deeds. The numbers, it will occasionally be found, do not correspond with the existing ones, owing to there having been no official designation made by them by the Department of Public Works.

The first date is the date the deed was drawn. The second date is the date of filing same. When both dates are the same, only one is given. When the date of drawing is other than in the current year the stated year is given. When both the dates are in the same year the year follows the second date.

The figures in each conveyance, thus, 2:482-10, denote that the property mentioned is in section 2, block 482, lot 10.

It should also be noted in section and block numbers that the instrument as filed is strictly followed.

A \$20,000-\$30,000 indicates the assessed value of the property, the first figures being for the lot only and the second figures representing both lot and building. Letter P before second figure indicates that the property is assessed as in course of construction. Valuations are from the assessment roll of 1916.

T. S. preceding the consideration in a conveyance means that the deed or conveyance has been recorded under the Torrens System.

Flats and apartment houses are classified as tenements.

Residences as dwellings.

All Christian names, streets, avenues, states and months are abbreviated when possible, also in some instances names of Banks, Trusts and Insurance Companies.

The Star following names of street or avenue in the Bronx Conveyances, Leases and Mortgages indicates that the property recorded is in the annexed district, for which there is no section or block number.

THE SUPREME COURT

has permitted real estate appraisers to qualify as experts and testify in court proceedings from their knowledge of real estate values obtained from the records as published in the Record and Guide. Why? Because, they are absolutely authentic, for these records are carefully abstracted from the original instruments, verified and edited by experts with years of experience, thus making them accurate, dependable and reliable, having no equal, and their value never decreasing.

With additional information not given in the Record and Guide weekly, these records are also published in the Quarterly, the final one, making in one compact volume, a complete transcription, in digest form, of all Conveyances, Miscellaneous Conveyances such as Release of Mortgages and Dowers, Contracts, Agreements, Consents, Assignments of Rents, Power of Attorneys Designation, Resignation and Appointment of New Trustees and Executors, etc., Mortgages, Extension of Mortgages, Participation and Subordination Agreements of Mortgages, Assignments of Mortgages, Satisfied Mortgages, Leases, including consents, assignments, cancellations and surrender of leases; Real Estate Appraisals, Auction Sales, Wills, New Buildings and Alterations with cross references for the entire year, Borough of Manhattan. These records are arranged geographically, chronologically and alphabetically so that the subscriber may, at a moment's notice, find the desired information. In order to make these records more complete the attorney's name is inserted in all Mortgages and a geographical cross reference to the Real Estate Appraisals is given. This permits the user in searching for the appraised value of a given parcel, and not having the name of the deceased, to obtain the information instantly. Years of experience have demonstrated that by using the Record and Guide Quarterly time and annoyance are saved. It is equally valuable to the broker who maintains an elaborate system of keeping records, or the man who must condense his plant.

REAL ESTATE APPRAISALS.

The following values were placed on real estate properties this week by the state appraisers in transfer tax proceedings, affecting Manhattan holdings. The amount specified does not in every case indicate the equity or interest of the decedent. In some cases he is not even the owner of record. It merely quotes the estimated market value of the realty regardless of mortgages or other liens. The information comprises the name of decedent, date of death, location of property, block and lot on city map, description of building, size of lot and estimated value on the date given. Where decedent owned property in other boroughs, details of Manhattan holdings only are given.

Borough of Manhattan.

Amend, Wm. C.—Jan5'18 (May8'18)—64TH ST, 154 W (4:1135-56), 20x100.5, 5-sty stn tnt, \$22,000.

EXPLANATION OF TERMS USED AND RULES FOLLOWED IN COMPILING RECORDS.

Q. C. is an abbreviation for Quit Claim deed, i. e., a deed where all the right, title and interest of the grantor is conveyed, omitting all covenants and warranty.

C. a G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or encumbered.

B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no expressed consideration, he really grants or conveys the property for a valuable consideration, and thus impliedly claims to be the owner of it.

The street and avenue numbers given in these lists are, in all cases, taken from the insurance maps when they are not mentioned in the deeds. The numbers, it will occasionally be found, do not correspond with the existing ones, owing to there having been no official designation made by them by the Department of Public Works.

The first date is the date the deed was drawn. The second date is the date of filing same. When both dates are the same, only one is given. When the date of drawing is other than in the current year the stated year is given. When both the dates are in the same year the year follows the second date.

The figures in each conveyance, thus, 2:432-10, denote that the property mentioned is in section 2, block 432, lot 10.

It should also be noted in section and block numbers that the instrument as filed is strictly followed.

A \$20,000—\$30,000 indicates the assessed value of the property, the first figures being for the lot only and the second figures representing both lot and building. Letter P before second figure indicates that the property is assessed as in course of construction. Valuations are from the assessment roll of 1916.

T. S. preceding the consideration in a conveyance means that the deed or conveyance has been recorded under the Torrens System.

Flats and apartment houses are classified as tenements.

Residences as dwellings.

All Christian names, streets, avenues, states and months are abbreviated when possible, also in some instances names of Banks, Trusts and Insurance Companies.

The Star following names of street or avenue in the Bronx Conveyances, Leases and Mortgages indicates that the property recorded is in the annexed district, for which there is no section or block number.

THE SUPREME COURT

has permitted real estate appraisers to qualify as experts and testify in court proceedings from their knowledge of real estate values obtained from the records as published in the Record and Guide. Why? Because, they are absolutely authentic, for these records are carefully abstracted from the original instruments, veri- fied and edited by experts with years of experience, thus making them accurate, dependable and reliable, having no equal, and their value never decreasing.

With additional information not given in the Record and Guide weekly, these records are also pub- lished in the Quarterly, the final one, making in one compact volume, a complete transcription, in digest form, of all Conveyances, Miscel- laneous Conveyances such as Rele- ase of Mortgages and Dowers, Con- tracts, Agreements, Consents, As- signments of Rents, Power of At- torneys Designation, Resignation and Appointment of New Trustees and Executors, etc., Mortgages, Ex- tension of Mortgages, Participation and Subordination Agreements of Mortgages, Assignments of Mort- gages, Satisfied Mortgages, Leases, including consents, assignments, cancellations and surrender of leases; Real Estate Appraisals, Auc- tion Sales, Wills, New Buildings and Alterations with cross references for the entire year, Borough of Man- hattan. These records are arranged geographically, chronologically and alphabetically so that the subscriber may, at a moment's notice, find the desired information. In order to make these records more complete the attorney's name is inserted in all Mortgages and a geographical cross reference to the Real Estate Appraisals is given. This permits the user in searching for the ap- praised value of a given parcel, and not having the name of the deceased, to obtain the information instantly. Years of experience have demon- strated that by using the Record and Guide Quarterly time and an- noyance are saved. It is equally valuable to the broker who main- tains an elaborate system of keep- ing records, or the man who must condense his plant.

REAL ESTATE APPRAISALS.

The following values were placed on real estate properties this week by the State appraisers in transfer tax proceedings, affecting Manhattan holdings. The amount specified does not in every case indicate the equity or interest of the decedent. In some cases he is not even the owner of record. It merely quotes the estimated market value of the realty regardless of mortgages or other liens. The information comprises the name of decedent, date of death, location of property block and lot on city map, description of building, size of lot and estimated value on the date given. Where decedent owned property in other boroughs, details of Manhattan holdings only are given.

Borough of Manhattan.

Conway, Alice M.—Jan1'18 (May14'18)—61ST ST, 129 W (4:1133-20), 20x100.5, 4-sty stn tnt, \$11,000.

THE SUPREME COURT
has permitted real estate appraisers to qualify as experts and testify in court proceedings from their knowledge of real estate values obtained from the records as published in the Record and Guide. Why? Because, they are absolutely authentic, for these records are carefully abstracted from the original instruments, verified and edited by experts with years of experience, thus making them accurate, dependable and reliable, having no equal, and their value never decreasing.
With additional information not given in the Record and Guide weekly, these records are also published in the Quarterly, the final one, making in one compact volume, a complete transcription, in digest form, of all Conveyances, Miscellaneous Conveyances such as Release of Mortgages and Dowers, Contracts, Agreements, Consents, Assignments of Rents, Power of Attorneys Designation, Resignation and Appointment of New Trustees and Executors, etc., Mortgages, Extension of Mortgages, Participation and Subordination Agreements of Mortgages, Assignments of Mortgages, Satisfied Mortgages, Leases, including consents, assignments, cancellations and surrender of leases; Real Estate Appraisals, Auction Sales, Wills, New Buildings and Alterations with cross references for the entire year, Borough of Manhattan. These records are arranged geographically, chronologically and alphabetically so that the subscriber may, at a moment's notice, find the desired information. In order to make these records more complete the attorney's name is inserted in all Mortgages and a geographical cross reference to the Real Estate Appraisals is given. This permits the user in searching for the appraised value of a given parcel, and not having the name of the deceased, to obtain the information instantly. Years of experience have demonstrated that by using the Record and Guide Quarterly time and annoyance are saved. It is equally valuable to the broker who maintains an elaborate system of keeping records, or the man who must condense his plant.

REAL ESTATE APPRAISALS.

The following values were placed on real estate properties this week by the State appraisers in transfer tax proceedings, affecting Manhattan holdings. The amount specified does not in every case indicate the equity or interest of the decedent. In some cases he is not even the owner of record. It merely quotes the estimated market value of the realty regardless of mortgages or other liens. The information comprises the name of decedent, date of death, location of property, block and lot on city map, description of building, size of lot and estimated value on the date given. Where decedent owned property in other boroughs, details of Manhattan holdings only are given.

Borough of Manhattan.

THE SUPREME COURT

has permitted real estate appraisers to qualify as experts and testify in court proceedings from their knowledge of real estate values obtained from the records as published in the Record and Guide. Why? Because, they are absolutely authentic, for these records are carefully abstracted from the original instruments, verified and edited by experts with years of experience, thus making them accurate, dependable and reliable, having no equal, and their value never decreasing.

With additional information not given in the Record and Guide weekly, these records are also published in the Quarterly, the final one, making in one compact volume, a complete transcription, in digest form, of all Conveyances, Miscellaneous Conveyances such as Release of Mortgages and Dowers, Contracts, Agreements, Consents, Assignments of Rents, Power of Attorneys Designation, Resignation and Appointment of New Trustees and Executors, etc., Mortgages, Extension of Mortgages, Participation and Subordination Agreements of Mortgages, Assignments of Mortgages, Satisfied Mortgages, Leases, including consents, assignments, cancellations and surrender of leases; Real Estate Appraisals, Auction Sales, Wills, New Buildings and Alterations with cross references for the entire year, Borough of Manhattan. These records are arranged geographically, chronologically and alphabetically so that the subscriber may, at a moment's notice, find the desired information. In order to make these records more complete the attorney's name is inserted in all Mortgages and a geographical cross reference to the Real Estate Appraisals is given. This permits the user in searching for the appraised value of a given parcel, and not having the name of the deceased, to obtain the information instantly. Years of experience have demonstrated that by using the Record and Guide Quarterly time and annoyance are saved. It is equally valuable to the broker who maintains an elaborate system of keeping records, or the man who must condense his plant.

Henry st, 99-101 (1:282-15), nwc Pike (Nos 20-4), 85.4x67.6, 1-5 & 1-6-sty bk tnts & str; Victor Muller, of Bklyn, to Jatison Constn Co, 18 E 41; AL; May24; May28'18; A\$63,000-111,000 (R S \$1). nom

REAL ESTATE APPRAISALS.

The following values were placed on real estate properties this week by the State appraisers in transfer tax proceedings, affecting Manhattan holdings. The amount specified does not in every case indicate the equity or interest of the decedent. In some cases he is not even the owner of record. It merely quotes the estimated market value of the realty regardless of mortgages or other liens. The information comprises the name of decedent, date of death, location of property block and lot on city map, description of building, size of lot and estimated value on the date given. Where decedent owned property in other boroughs, details of Manhattan holdings only are given.

Borough of Manhattan.

Kempner, Louis.—Jan21'18 (May28'18)—9TH AV, 508 (3:762-4), 25x100, 6-sty bk tnt & strs, \$40,000.

EXPLANATION OF TERMS USED AND RULES FOLLOWED IN COMPILING RECORDS.

Q. C. is an abbreviation for Quit Claim deed, i. e., a deed where all the right, title and interest of the grantor is conveyed, omitting all covenants and warranty.

C. a G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or encumbered.

B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no expressed consideration, he really grants or conveys the property for a valuable consideration, and thus impliedly claims to be the owner of it.

The street and avenue numbers given in these lists are, in all cases, taken from the insurance maps when they are not mentioned in the deeds. The numbers, it will occasionally be found, do not correspond with the existing ones, owing to there having been no official designation made by them by the Department of Public Works.

The first date is the date the deed was drawn. The second date is the date of filing same. When both dates are the same, only one is given. When the date of drawing is other than in the current year the stated year is given. When both the dates are in the same year the year follows the second date.

The figures in each conveyance, thus, 2:432-10, denote that the property mentioned is in section 2, block 432, lot 10.

It should also be noted in section and block numbers that the instrument as filed is strictly followed.

A \$20,000-\$30,000 indicates the assessed value of the property, the first figures being for the lot only and the second figures representing both lot and building. Letter P before second figure indicates that the property is assessed as in course of construction. Valuations are from the assessment roll of 1918.

T. S. preceding the consideration in a conveyance means that the deed or conveyance has been recorded under the Torrens System.

Flats and apartment houses are classified as tenements.

Residences as dwellings.

All Christian names, streets, avenues, states and months are abbreviated when possible, also in some instances names of Banks, Trusts and Insurance Companies.

The Star following names of street or avenue in the Bronx Conveyances, Leases and Mortgages indicates that the property recorded is in the annexed district, for which there is no section or block number.

KEY TO ABBREVIATIONS USED.

(A)—attorney.

A.L.—all liens.

AT—all title.

ano—another.

THE SUPREME COURT

has permitted real estate appraisers to qualify as experts and testify in court proceedings from their knowledge of real estate values obtained from the records as published in the Record and Guide. Why? Because, they are absolutely authentic, for these records are carefully abstracted from the original instruments, verified and edited by experts with years of experience, thus making them accurate, dependable and reliable, having no equal, and their value never decreasing.

With additional information not given in the Record and Guide weekly, these records are also published in the Quarterly, the final one, making in one compact volume, a complete transcription, in digest form, of all Conveyances, Miscellaneous Conveyances such as Release of Mortgages and Dowers, Contracts, Agreements, Consents, Assignments of Rents, Power of Attorneys Designation, Resignation and Appointment of New Trustees and Executors, etc., Mortgages, Extension of Mortgages, Participation and Subordination Agreements of Mortgages, Assignments of Mortgages, Satisfied Mortgages, Leases, including consents, assignments, cancellations and surrender of leases; Real Estate Appraisals, Auction Sales, Wills, New Buildings and Alterations with cross references for the entire year, Borough of Manhattan. These records are arranged geographically, chronologically and alphabetically so that the subscriber may, at a moment's notice, find the desired information. In order to make these records more complete the attorney's name is inserted in all Mortgages and a geographical cross reference to the Real Estate Appraisals is given. This permits the user in searching for the appraised value of a given parcel, and not having the name of the deceased, to obtain the information instantly. Years of experience have demonstrated that by using the Record and Guide Quarterly time and annoyance are saved. It is equally valuable to the broker who maintains an elaborate system of keeping records, or the man who must condense his plant.

REAL ESTATE APPRAISALS.

Borough of Manhattan.

The following values were placed on real estate properties this week by the state appraisers in transfer tax proceedings, affecting Manhattan holdings. The amount specified does not in every case indicate the equity or interest of the decedent. In some cases he is not even the owner of record. It merely quotes the estimated market value of the realty regardless of mortgages or other liens. The information comprises the name of decedent, date of death, location of property, block and lot on city map, description of building, size of lot and estimated value on the date given. Where decedent owned property in other boroughs, details of Manhattan holdings only are given.

Bagley, Robt A.—Jan 27'18 (June 18)—3D AV, 2241 (6:1786-47), sec 122d, 25.2x100, 3-sty bk bldg & str; ½ pt of \$35,000.

EXPLANATION OF TERMS USED AND RULES FOLLOWED IN COMPILING RECORDS.

Q. C. is an abbreviation for Quit Claim deed, i. e., a deed where all the right, title and interest of the grantor is conveyed, omitting all covenants and warranty.

C. a G. means a deed containing Covenant against Grantor only, in which the seller makes no expressed consideration, he really grants or conveys the property for a valuable consideration, and thus impliedly claims to be the owner of it.

B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no expressed consideration, he really grants or conveys the property for a valuable consideration, and thus impliedly claims to be the owner of it.

The street and avenue numbers given in these lists are, in all cases, taken from the insurance maps when they are not mentioned in the deeds. The numbers, it will occasionally be found, do not correspond with the existing ones, owing to there having been no official designation made by them by the Department of Public Works.

The first date is the date the deed was drawn. The second date is the date of filing same. When both dates are the same, only one is given. When the date of drawing is other than in the current year the stated year is given. When both the dates are in the same year the year follows the second date.

The figures in each conveyance, thus, 2:432-10, denote that the property mentioned is in section 2, block 432, lot 10.

It should also be noted in section and block numbers that the instrument as filed is strictly followed.

A \$20,000-\$30,000 indicates the assessed value of the property, the first figures being for the lot only and the second figures representing both lot and building. Letter P before second figure indicates that the property is assessed as in course of construction. Valuations are from the assessment roll of 1918.

T. S. preceding the consideration in a conveyance means that the deed or conveyance has been recorded under the Torrens System.

Flats and apartment houses are classified as tenements.

Residences as dwellings.

All Christian names, streets, avenues, states and months are abbreviated when possible, also in some instances names of Banks, Trusts and Insurance Companies.

The Star following names of street or avenue in the Bronx Conveyances, Leases and Mortgages indicates that the property recorded is in the annexed district, for which there is no section or block number.

THE
SUPREME COURT

has permitted real estate appraisers to qualify as experts and testify in court proceedings from their knowledge of real estate values obtained from the records as published in the Record and Guide. Why? Because, they are absolutely authentic, for these records are carefully abstracted from the original instruments, verified and edited by experts with years of experience, thus making them accurate, dependable and reliable, having no equal, and their value never decreasing.

With additional information not given in the Record and Guide weekly, these records are also published in the Quarterly, the final one, making in one compact volume, a complete transcription, in digest form, of all Conveyances, Miscellaneous Conveyances such as Release of Mortgages and Dowers, Contracts, Agreements, Consents, Assignments of Rents, Power of Attorneys Designation, Resignation and Appointment of New Trustees and Executors, etc., Mortgages, Extension of Mortgages, Participation and Subordination Agreements of Mortgages, Assignments of Mortgages, Satisfied Mortgages, Leases, including consents, assignments, cancellations and surrender of leases; Real Estate Appraisals, Auction Sales, Wills, New Buildings and Alterations with cross references for the entire year, Borough of Manhattan. These records are arranged geographically, chronologically and alphabetically so that the subscriber may, at a moment's notice, find the desired information. In order to make these records more complete the attorney's name is inserted in all Mortgages and a geographical cross reference to the Real Estate Appraisals is given. This permits the user in searching for the appraised value of a given parcel, and not having the name of the deceased, to obtain the information instantly. Years of experience have demonstrated that by using the Record and Guide Quarterly time and annoyance are saved. It is equally valuable to the broker who maintains an elaborate system of keeping records, or the man who must condense his plant.
